The Recipe

Ingredients:

- Base Compound: 1 state-of-the-art blockchain (ICP)
- Core Element: \$Breakingbits stash unbound by traditional constraints
- Catalyst: Our Lab for precise token minting

Tokenomics Formula:

TOTAL SUPPLY: 10,000,000 \$BREAKINGBITS

Rare yet abundant enough to catalyze significant transformation.

SUPPLY EVAPORATION TACTICS:

Each transaction burns a part of the stash, silently carving scarcity out of circulation. BURN RATES ADJUST BY TRANSACTION TYPE. STANDARD EXCHANGES BURN LESS. HIGH-STAKES OPERATIONS LIKE MERCH PURCHASES OR LAB MINTING BURN MORE.

Allocation Mix:

■ COMMUNITY RESERVOIR: 15% (1,500,000 \$BREAKINGBITS)

To grow and sustain the vibrant heartbeat of our ecosystem.

■ MEME ALCHEMISTS DROP: 5% (500,000 \$BREAKINGBITS).

Precisely measured and allocated for the **CLOWN & JESTE** compounds' holders—the two most loyal elements within the ICP reaction chamber.

■ ELEMENTAL RESERVE: 5% (500,000 \$BREAKINGBITS)

A strategic cache for unforeseen experiments and endeavors.

■ OPERATIONAL STABILITY: 5% (500,000 \$BREAKINGBITS)

Ensuring the continuous operation and expansion of our digital lab.

■ LIQUIDITY POOL: 50% (5,000,000 \$BREAKINGBITS)

Guaranteeing fluidity and accessibility within the marketplace.

■ DEVELOPER FUND: 5% (500,000 \$BREAKINGBITS)

Allocated for the brains behind the operation—the ones who turn theory into practice.

■ MARKETING AND EXPANSION: 15% (1,500,000 \$BREAKINGBITS)
